THE CHARLEROI MAIL

VOL. XV. NO. 258. CHARLEROI, WASHINGTON CO., PA. WEDNESDAY, MAY 5, 1915. ONE CENT

CONTRACT FOR STREET PAVING AWARDED TO UNIONTOWN FIRM

Todd and Baker Successful in Bidding for Work on Three Sections

THEIR BID IS $11,325.20

Amount is Slightly Under That of Charleroi Contractors—Municipal Building Bids Are Wanting—Important Business is Transacted.

Three contracts were awarded as one by council Tuesday night for the grading and paving of three Charleroi streets. The successful firm in the competitive bidding was Todd and Baker of Uniontown, whose price for Meadow avenue paving from First to Fourth street, Eighth street from McKean avenue to the rail road and First street from McKean to Fallowfield avenue was $11,325.20. The bids were submitted for each street separately, but the contract was awarded as one lump. It was decided to use United block brick on First street and Eighth street and Mack block brick on Meadow avenue. Stone curbing will be used on the two smaller streets and concrete curbing on Meadow avenue. The bids in the aggregate were as follows:

Todd & Baker, Uniontown, $11,325.20
Hastings & Piper, Charleroi, $11,456.75
Hall & Co., Homestead ..$11,530.65
Thomas Arrigo, Charleroi..$11,944.55
Parsons Co., Brownsville ..$12,296.20
W. B. Taylor, Charleroi ...$13,290.65

All members of council were present at the meeting with President D. R. Duvall in the chair. There were no bids received for either of two valuable borough properties on Fallowfield avenue, although one bid was submitted for a building owned by the borough at the corner of Lincoln avenue and First street. What this will mean for the municipal building project is not known.

Reports of various officials were received. Burgess S. L. Woodward reported 69 arrests during April, $77 in fines assessed and $61 in fines collected. Of the 69 arrested, 31 were discharged. Tax Collector J. W. Mathias reported taxes collected for 1912, 1913 and 1 914 amounting to $263.12. Borough Treasurer R. H. Rush submitted the following report:

Receipts for month	$ 2,322.95
Balance from last report.	47.197.42
Total	$49,520 37
Disbursements	4,779.37
Balance	$44,741.00

Tax Collector J. W. Hastings presented a request for a meeting with the finance committee of council and the finance committee of the school board, for the purpose of making arrangements for the collection of delinquent taxes. A meeting will be held as desired.

In making out the list of warrants Thomas Arriga was ordered paid $591.22 for re-building the retaining wall on Lincoln avenue at the lower end of town, and for the construction of a catch basin on Long alley. Geo. M. Wilson was ordered paid $783.75 for making changes in the street at

SIX MILLS TOO MUCH TAXATION AT BEALLSVILLE, IS THE CLAIM

Citizens Ask Council to Lower Burdensome Millage and Council Answers by Fixing That Rate.

At the regular meeting of the Beallsville borough council held Monday evening a petition was presented by taxpayers asking council to lower the tax levy from six mills. At a former meeting four of the five members of council present, including the president voted in favor of the six mills. Since the former meeting various taxpayers have signified their dissatisfaction, claiming that the levy was much too high. Last year the levy was fixed at three mills. However, improvements are to be made the coming summer, which will be an added expenditure and so council put up the tax millage Part of the citizens are in favor of the lower levy while others oppose it and as a result council has been between two fires in the matter.

GOOD BUSINESS IN COAL TRADE

Lock Report for Month of April Shows Shipments Are Holding Their Own

LOCKMASTER GIVES FIGURES

Good business in the coal mining industry prevailed during April, judging from the report of shipments of coal for that month reported by Lockmaster George W. Paxton, at Lock No. 4. The total shipments for the month were 15,580.000 bushels this being but slightly less than the March record, which was the best of the year.

Following was the report made by Lockmaster Paxton today: Upstream—lockages 502, steamers 306, boats, barges and flats, 1,166, sand 26,000 bushels, gravel 27,000 bushels, down stream—lockages 610, steamer 310, boats, barges and flats 1,182, coal 15,580,000 bushels. The rain all during April was 1.28 inches.

MARGUERITE CLARK TO BE SHOWN AT COYLE THEATRE

Marguerite Clark who is perhaps one of the most popular of motion picture stars will be shown at the Coyle theatre Thursday afternoon and evening in "Gretna Green," a comedy drama. Miss Clark appeared in "Wildflower" and "The Crucible" and in each of these pictures she won many friends by her beauty and fascinating personality. In "Gretna Green" Miss Clark will enact the leading role that of Dolly Erskine, belle of old Harrawgate, England who is something of a madcap.

ARRIVES HERE FROM BELGIAN BATTLE LINE

Probably the first person to arrive directly from the trenches where there is terrific fighting along the French borders is Felicien Felot, until a few weeks ago a soldier of King Albert in the Belgian army. Felot, limping painfully from a wound caused by a shell in a battle in the province of Flanders arrived this morning, together with his wife, and for the present will remain in Charleroi. Felot is a cousin of Rev. J. E. Charles, pastor of the French Presbyterian church, with whom he is stopping and E. J. Charles of the Charleroi Savings and Trust company.

Felot has been in some of the hardest battles of the great European war. His home was at Verviers, in the province of Liege, but all semblage of home is gone. He fought at Antwerp and other points before being severely wounded in an engagement between the Germans and the Allies along the French frontier. Felot was removed to Paris. Sickness followed his injury to his limb, and he was kept there for some weeks, to finally be discharged both from the hospital and from the army, since his injury left his incapacitated for army service.

After his discharge from the hospital, Felot managed to effect the escape of his wife from Belgium, and they sailed from Bordeaux on the steamer Espaigne for the United States. Stories of their horrifying experiences are told by both.

Felot is a bookkeeper and also a good musician, being both a violinist and pianist. As soon as he recovers sufficiently from his wound he will probably locate in some employment here.

EXCELLENT DISPLAY AT NINTH STREET SCHOOL

Tuesday was display day at the Ninth street school in this week's school exposition program and as on the previous day at the Fifth street school, there was a showing of work enough to dizzy a person. Likewise, as on the previous day, there were a large number only too willing to be dizzied if that was possible, by viewing the display. While the actual count of people who entered the Ninth street building is not known, it ran high both Tuesday afternoon and evening.

The displays in the different rooms followed the general course, consisting of work done by the pupils during the last several weeks. What all have been able to do in drawing, penmanship, spelling and numerous other departments of their school work was splendidly demonstrated. Also it was proven at the Ninth street school that the school folk taken as a whole are brilliant young people and their teachers capable.

Beautiful decorative effects were obtained at Ninth street by a blending of things of nature with wall drawings. In one room the windows were hung with a sort of tapestry that was the work of the pupils of that grade. It was unusual and pretty. Wall drawings in every room enhanced the general beauty. Flowers, mostly of the blooming variety, rested on the window sills, contributing to the general scheme of harmony and beauty.

It could hardly be said that one room was better arranged than another, for all were good. In the hall, the stairway was decorated with palms, ferns and other greens, and at the top, half hidden by a large palm was a victrola, which during the visiting hours sent forth music of the best and most agreeable kind.

Ninth street broke away from the ordinary in two ways. One was in the providing of ushers, these being boys from some of the grades who politely conducted visitors through every room, showing them things of interest much after the style of guides in a western park. Another unusual feature was the giving of souvenirs in one room. They consisted of crepe paper flowers that had been manufactured by the pupils.

Today the Second street school is celebrating and tomorrow will be Crest avenue day. The windup of the week's exposition will be Friday night at the high school gymnasium.

PREPARING FOR THE PARK SEASON AT SHADY GROVE

The Connellsville Courier says: "R. S. Coyle familiarly known as 'Bobby,' as rotund and genial as ever dropped back into town today, prepared to engineer another successful season as manager of Shady Grove Park. Mr. Coyle looks for a big season and has ideas for a number of innovations before the summer is over. He is already trying to fix a date for the annual school picnic, which comes about the close of the public school term.

Tolacek Held.

Charged with carrying concealed weapons, John Tolacek, who already has become known as the "man with the stamps" because of the large number in his possession when arrested, was held by Justice of the Peace Rice under $500 bail Tuesday night for action of the grand jury. He furnished the bail.

OUTER LOCK AT NO. 4 TO BE COMPLETED WITHIN SIX WEEKS

Finishing Touches Now Being Given And Work Will Begin Soon on Inner Lock

GATES ARE FINISHED TODAY

Eichley Company of Pittsburg Concludes Important Contract—May Take From One Year to 18 Months to Build the Inner Structure

Six weeks more probably and the new outer lock at Lock No. 4 will be opened to service and the work started on the reconstruction of the inner lock. This was the time set this morning and if nothing interferes with the work which is now progressing rapidly the six weeks' time will be sufficient to complete the work.

At present the new all steel gates are being hung by the Eichley company of Pittsburg, they to be completed according to schedule today. The company has been working on them for some time.

Practically all the concrete work excepting that of the power house has been finished. Water power and compressed air will be used. A guide wall is being constructed.

The new lock is 360 feet long and 56 wide inside, providing ample space for the operation of steamers and their tows. Locking at Lock No. 4 will be made easier through the new arrangement.

The inner lock will be the same size as that now being completed. It will not take as long to finish, yet it is expected, it will require from one year to 18 months to complete. It has taken the better part of three years to construct.

M'CRACKEN WILL IS PROBATED AND LETTERS ARE DULY ISSUED

Property of Fallowfield Township Man Is Left to His Sons and Daughters.

The will of William McCracken, late of Fallowfield township, has been probated and letters issued to A. L. McCracken, Peter McCracken and Ella K. Jones, children. His household goods are divided between Ella K. Jones and Missouri Plants, daughters, the latter to receive one-third and former two-thirds. Missouri Plants is to receive a horse, wagon, and things on the farm tract. His watch is given a grandson, William H. McCracken. There is left in trust $25 for use of the McCracken lot in Maple Creek cemetery. Missouri Plants is given the home tract of four acres, provided that the daughter, Ella K. Jones, shall have the privilege of residing on said land. A tract of 16 acres he directs to be rented and proceeds divided among the children.

FIFTEEN MILLS IS SCHOOL LEVY

Rate of Taxation is Decided Upon by School Directors at Tuesday Meeting

MUCH PAINTING TO BE DONE

Fifteen mills was fixed as the tax levy for school purposes by the school board at their regular meeting Tuesday evening. The same evening a number of teachers were elected, but the names will not be given out until the entire list has been chosen.

It was decided to have the interior woodwork of the Ninth street and Fifth street school buildings painted this summer and the contract will shortly be awarded. Matters pertaining to the high school commencement were discussed together with other matters.

COOPERATION SECURED FOR HOME GARDENING

Child Welfare Circle Committee Gets Promise of Council and School Board to Aid Them in Carrying on Work.

The movement for home gardening here received a boost Tuesday night, when a committee consisting of Mrs. W. B. Pfleghardt, Mrs. Edwin McKay and Mrs. F. C. Stahlman, representing the Child Welfare circle appeared before council and the school board, and secured the cooperation of both in their efforts. Council appointed a committee consisting of D. R. Hormell, J. K. Rickey and J. K. Mitchell to meet with a committee from the school board and the Child Welfare circle to arrange matters. The school board committee will be named later. Use of vacant lots and the use of borough teams were given by the borough, which agreed to pay its pro rata share for carrying on the work, as did also the school board.

LAY SERMON ON HEALTH

There is a little book entitled "The Kingdom of Dust," by Dr. J. Gordon Ogden, an eminent professor of physics and chemistry. In this book he says, "Dust is the Right Hand of Death."

Dr. Ogden then goes on to say, "More than half of all the deaths the world, from the equator to the poles, are due to the distribution and breathing of dust." Dust carries with it the germs of disease—bacteria. Bacteria exist in all quarters, hies and shies. Especially where dust where human beings live, eat, sleep, move, work, perspire and exchange.

Wherever we go we are giving off particles of dead matter. This dead animal matter dries and circulates in the form of impalpable dust that carries bacteria. It is a form of vegetation, so small, so minute, that fifty thousand of these germs may sit on the edge of a knife-blade along a line one inch in length.

Some are visible under the microscope. Others are so minute that the highest power of the magnifying glass fails to find them. We only know that they exist by watching their growth. They come out of the unseen and evolve until the microscope can detect them. Bacteria are divided into three classes: The spherical, or cocci; the rod-shaped, or bacilli; and the spiral.

These grow by fission, that is, they divide, and a piece so small that it cannot be seen with the microscope sometimes breaks off and can be caught by the scientist on a "Petri Plate," or culture bed, and evolved. Bacteria are mostly of a septic order and these are the cause of zymotic diseases. The best examples of septic diseases are pneumonia, tuberculosis, diphtheria, scarlet ever, measles.

Dr. Ogden maintains that the diseases caused by bacteria are avoidable. The thing to do is to minimize dust, ventilate our homes, and spend at least two hours every day out of doors. It is only within recent times that we have recognized the necessity of fresh air. Sleeping out of doors in open air sleeping porches will add 20 percent of efficiency to the life of the individual.

To be strong, well, happy and efficient we must be hygenic in our habits.

Soap, water and sanitary plumbing are now accepted, but poisoned air in the home means toxins in the bodies of the occupants, then disease.

Attend the National Sale of N. W. Schlup company at Monessen. Three U. S. A. spoons with every dollar purchase. Every customer receiving six spoons will receive a Roger shell sugar spoon. A-30-M-3-5

THIS WOMAN'S SICKNESS

Quickly Yielded To Lydia E. Pinkham's Vegetable Compound.

Bridgeton, N.J.—"I want to thank you a thousand times for the wonderful good Lydia E. Pinkham's Vegetable Compound. I have used it for ... I suffered very much from a female trouble ... had a bearing down pain, was irregular and at times could hardly walk across the room. I was unable to do my housework or attend to my baby I was so weak. Lydia E. Pinkham's Vegetable Compound did me a world of good, and now I am strong and healthy, can do my work and care for my baby. I advise all suffering women to take it and get well as I did."—Mrs. FANNIE COOPER, R.F.D., Bridgeton, N.J.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record of being the most successful remedy for female ills we know of and thousands of voluntary testimonials on file in the Pinkham laboratory at Lynn, Mass., seem to prove this fact.

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

FAIRMONT REGION WILL PROFIT BY COAL TRADE

New orders for several hundred thousand tons of coal to be delivered by the Consolidated Coal Company to the lakes as soon as possible mean that the big company will not only work the mines in the Fairmont region already in operation, but will put other plants into commission, giving employment to many h undred additional men and s teady work to those already employed.

This is the information forthcoming from the office of Harry H. Watson, manager of the West Virginia division of the company. Mr. Watson stated that the new orders mean that securities in the mining industry in the Fairmont region will be greater this summer than for many years in the past.

As the coal business is a criterion of general conditions in the region, the outlook as forecasted by the news from the Consolidated officials very bright.

WILL DISCUSS EUROPEAN FUSS IN SERMON HERE

Rev Joshua to Preach Tonight at the First Baptist Church on "The World's Unrest."

Tonight Rev. Clifford Joshua, former pastor of the First Baptist church, will preach at the Baptist church on the subject, "The World's Unrest." This is a theme that has to do with the European war, a theme that Rev. Joshua is familiar with owing to his years of residence in Wales. Recently the same sermon was preached at New Castle, where Rev. Joshua now holds a pastorate with the result that his church was crowded. City officials including the mayor attended. On May 12, Rev. Joshua is planning to leave for Europe to spend several weeks visiting in his home land.

The Out of Doors Man

The fellow with the big, tough muscles who can chop trees all day and lift the butt end of a hard log, is a hearty liver in everything he tackles. He likes his tobacco rich, sweet, mellow and Long Cut—good for both smoking and chewing. He uses

FIVE BROTHERS

Pipe Smoking Tobacco

because it's got the right stuff in it.

Satisfaction—for a sturdy man—can come from real tobacco only. Insipid mixtures don't appeal to a man with real tobacco hunger.

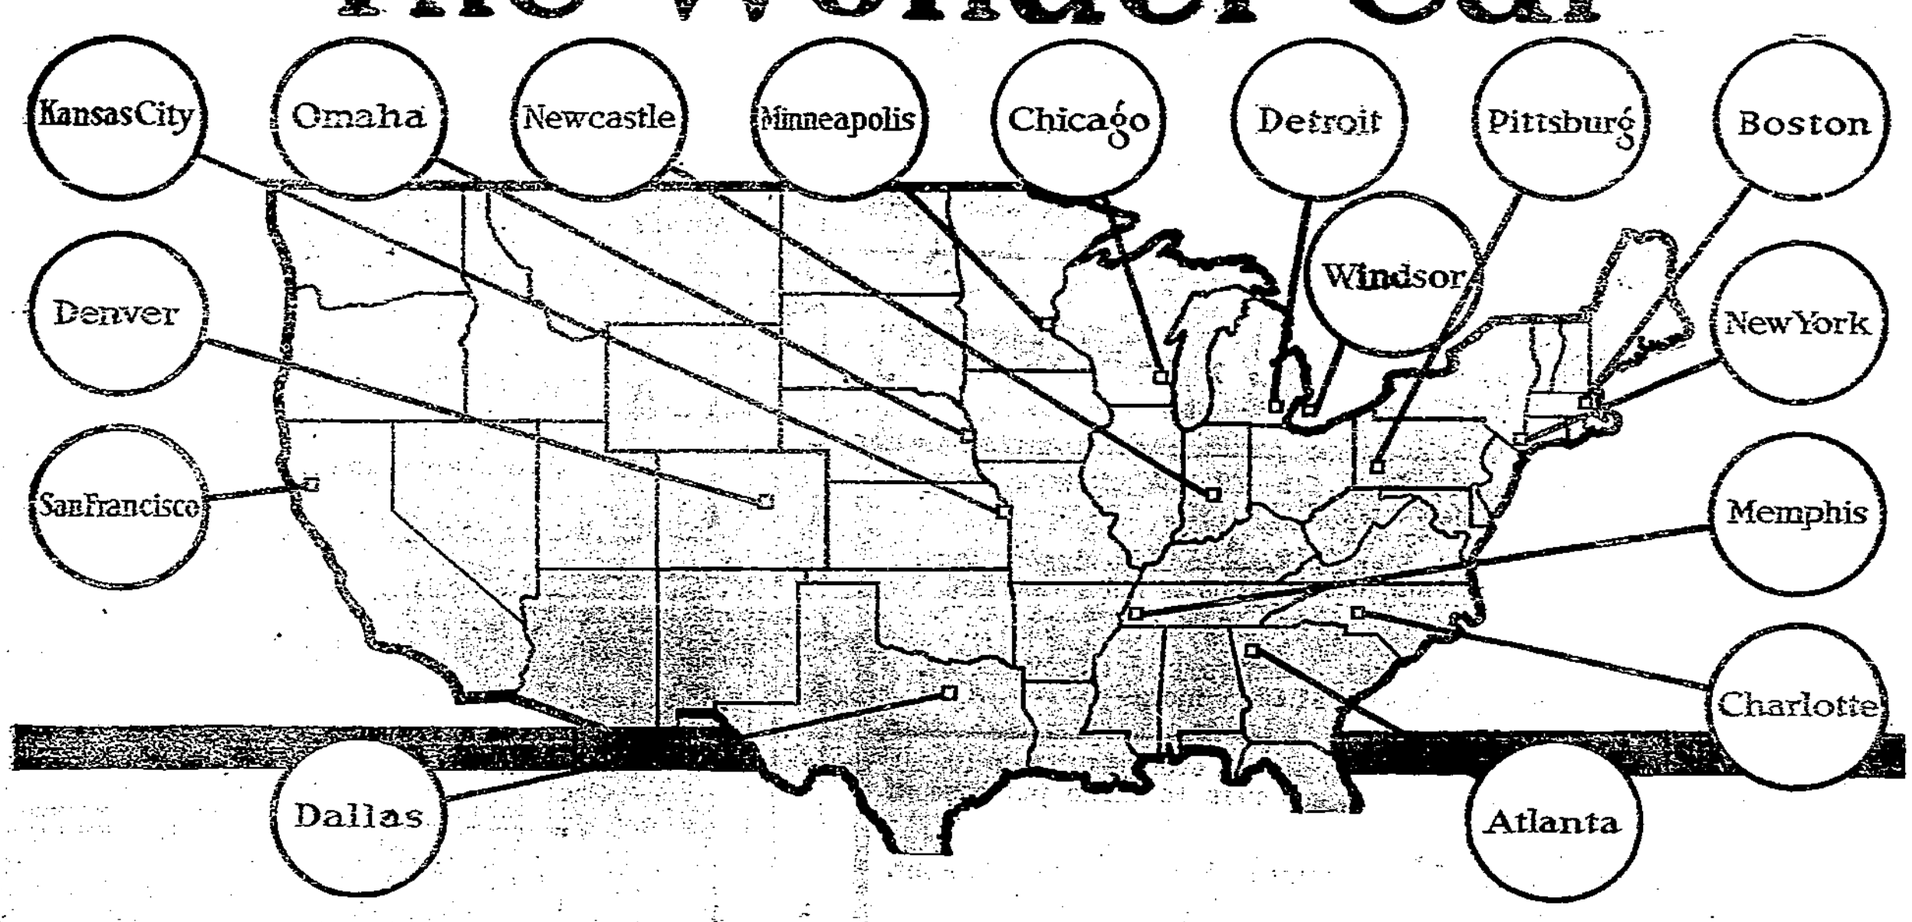
FIVE BROTHERS is pure Southern Kentucky leaf, with the "body" for a real smoke or chew, rich and pleasing. It takes three to five years to age the tobacco in FIVE BROTHERS; the process can't be hurried. That's the reason FIVE BROTHERS is so ripe, mellow and healthful.

FIVE BROTHERS is sold everywhere—get a package today.

THE AMERICAN TOBACCO COMPANY

Maxwell

"The Wonder Car"



16 Great Service Branches—54 Maxwell District Offices—More than 2,000 Maxwell Dealers are always at the Service of Those Who Drive Maxwell Cars

When you buy an automobile you buy two kinds of service. First:—The service given and guaranteed by the car itself. Second:—The service given by the maker and the dealer while the car is in use.

The service the Maxwell car gives is known. 38,000 satisfied Maxwell owners have given the car the rough and tumble acid test of fully eighteen months' service. The Maxwell has shown that it is able to stand up under the severest use. In cities, over country roads, through mud and sand and up the steepest mountains, the 1915 Maxwell has made good for 38,000 owners.

THE SERVICE THAT THE MAXWELL MOTOR COMPANY GIVES

The service that the Maxwell car gives cannot be questioned. Any automobile owner from time to time requires service from the maker of the car he drives. He sometimes needs new parts, adjustments, etc.

16 GREAT MAXWELL SERVICE BRANCHES

The Maxwell Motor Company takes care of Maxwell owners by maintaining *16 great Maxwell Service Branches.* These branches are in great cities which have been selected in such a manner as to thoroughly cover the United States. They can deliver parts to any Maxwell dealer or Maxwell owner within *a few hours.*

54 MAXWELL DISTRICT OFFICES

54 Maxwell District Offices are maintained in leading cities. This means 54 District Managers, each with a corps of assistants. A great big part of the work of this army of skilled men is to see that Maxwell dealers give real Maxwell service to Maxwell owners.

MORE THAN 2,000 MAXWELL DEALERS ALWAYS AT YOUR SERVICE

Each of the Maxwell dealers in the United States and Canada is an automobile expert. Anyone of them stands ready at all times to give advice and assistance to any Maxwell owner. You can tour all of the United States and Canada and should your car require the attention of an expert you will find a Maxwell dealer near at hand. If you need a replacement part, and the dealer does not have it in stock, he can get it for you from the nearest Maxwell branch within a few hours.

Maxwell owners never have their cars out of service for days or weeks at a time waiting for replacement parts.

The $695 Maxwell "Wonder Car" is the greatest real automobile value ever offered. The service that the Maxwell Motor Company gives is not surpassed by the service given by any other automobile manufacturing organization in the world.

Read This List of Expensive Features. The 1915 Maxwell Has These Features And Many Others.

Attractive Streamline Body

Pure streamline body; graceful crown fenders, with all rivets concealed. All the grace, style and "snap" that you will find in any of the highest priced cars.

A High-Tension Magneto

Nearly all the high priced cars have high tension magnetos. A high tension magneto gives positive ignition. The Simms magneto, with which the Maxwell is equipped, is recognized as one of the best magnetos made.

Left Side Drive—Central Control

Left side steer with gear shifting levers in center of driving compartment—center control—has been accepted by leading makers of expensive automobiles as the safest and most comfortable for the driver; that is why the Maxwell has it. The Maxwell is so easy to drive and control that a child can handle it.

Three-Speed Sliding Gear Transmission

All high priced cars have a sliding gear transmission. It is costly to make, but it is the best. If the motor has the power, sliding gears will pull the car out of any mud or sand. The Maxwell has a three-speed selective sliding gear transmission because Maxwell engineers do not consider any other type to be worthy of the Maxwell car.

Double-Shell Radiator with Shock Absorbing Device

The Maxwell radiator is of handsome design, gracefully curved, and it is built to be trouble proof. It is the expensive double shell type and has ample cooling capacity. The radiator is mounted to the frame by means of a shock absorbing device on each side, which relieves the radiator of all twists and distortions of the frame, caused by roughness of the road. The shock absorbing device also minimizes the possibility of radiator leaks.

The Roomy Full 5-Passenger Body Adjustable Front Seat

The 1915 Maxwell has a full grown 5-passenger body. The front seat is adjustable, you can move it three inches forward or backward. This makes the car really comfortable for the driver. No cramped legs for tall people or uncomfortable reaching for short people. Most drivers' seats are made to fit anyone—so fit no one.

Low "Up-keep" Carburetor

The carburetor used on the Maxwell was especially designed for it after long and severe tests under every conceivable condition. Economy tours conducted by hundreds of dealers and owners in different sections of the country have proved its efficiency, its quick response to throttle and its extremely low consumption of gasoline. It has been termed the "low up-keep" carburetor.

Irreversible Steering Gear

The greatest margin of safety has been provided in the steering gear of the 1915 Maxwell. The Maxwell irreversible steering mechanism is of the expensive worm-and-gear type and its superiority over every other type lies in its many adjustments. At no time is more than a fourth of the bearing surface of the gear which operates the worm in use. When needed, a new bearing surface may be had by adjusting the gear a quarter of a turn. In short, the Maxwell steering gear has four times the adjustment of any other kind.

Heavy Car Comfort

What surprises most people is the smooth, luxurious riding qualities of the Maxwell. The spring suspension of the 1915 Maxwell is the same costly combination of long semi-elliptical front springs and the three-quarter elliptic rear springs that is used on most heavy weight, high priced cars. The Maxwell offers you every essential of the highest priced machines at a fifth of their cost.

One Size of Tire—Anti-Skids on Rear

The Maxwell car is one of the easiest cars in the world on tires. Maxwell owners carry but one spare tire and but one size of spare tubes. Economical 30 inch x 3½ inch tires are used all around. A famous make of anti-skid tires are supplied on rear wheels.

A Dependable Electric Starter

For $55 extra, you can have your Maxwell delivered equipped with the famous Simms-Huff electric starter. This starter is efficient, trouble proof and easily operated.

And the Maxwell is completely equipped from the sheet metal, ventilating windshield at the front to the spare tire carrier at the rear.

The Maxwell Company's Guarantee of Service to Maxwell Owners

No other automobile is backed by a more reliable service than that guaranteed every Maxwell owner. More than 2,000 Maxwell dealers—in every part of this country—are always ready to give expert advice, to make adjustments, and to supply new parts at reasonable prices.

This splendid Maxwell dealer service organization is perfected and completed by the chain of Maxwell owned and Maxwell operated Service Branches. Sixteen great Maxwell Service Stations are so located throughout the country that a Maxwell dealer can supply any part for an owner within a few hours if not in his stock. Maxwell Service is one of the great advantages enjoyed by Maxwell owners.

Order a Maxwell from us now, and when you want it delivered, we will give you your car—not an excuse on delivery day

$695 F. O. B. DETROIT ELECTRIC STARTER **$55** EXTRA

AGE NO BAR

Everybody in Charleroi is Eligible.

Old people stooped with suffering.
Middle age, courageously fighting.
Youth protesting impatiently;
Children, unable to explain;
All in misery from their kidneys.
Perhaps a little backache first.
Urinary disorders, dropsy may quickly follow.

Doan's Kidney Pills are for weak kidneys.

Are endorsed by thousands.

Here's Charleroi testimony.

Mrs. W. McBride, 740 Crest avenue, Charleroi says: "One of the family was in misery from dull pains in the back. Doan's Kidney Pills were used and they brought great benefit. Later there was a return of the old trouble and less than one box of Doan's Kidney Pills, procured from Piper Bros., Drug store removed the pain in the back and there has been no suffering since. We think there is nothing equal to Doan's Kidney Pills."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McBride recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

CONTRACT FOR STREET PAVING

Continued from page one.

the corner of Lincoln avenue and First street, ten per cent being held back.

A petition for a street light on Oakland avenue and Seventh street was presented and was placed in the hands of the light committee.

J. M. Fleming, chief of the fire department, was present stating the need of the fire department of a number of rubber coats, boots and hats. The matter was placed in the hands of the fire, water and light committee to act conjunctively with Chief Fleming.

Objections were called for in the matter of grading and paving Seventh street from Lincoln avenue to Crest avenue, Meadow avenue from Fifth street to Seventh street, Third street from Lincoln avenue to Meadow avenue, Gelder alley, and a part of McMahon alley. One man, a teamster who does not own property on Seventh street was heard. He said that with Seventh street paved, difficulties in hauling down that street in winter time would be increased.

Adjournment was taken to meet May 20, when ordinances for paving the various sections of streets will be taken up.

Stop, Look and Reason

Young man, you had better stop that spending all you earn, look around and see whose financial standing and positions in the community you long to equal, and then reason out in your own mind how they acquired these coveted places.

You will discover that nine tenths of them saved a substantial portion of their salaries when those salaries were small. Are you doing it? Better start TODAY. Only requires a dollar to get started—then add to it each pay day—and it will surprise you in a year.

We Are Consulting Specialists in Typewriters

THIS may be a new idea to you, but think it over.

The point is that the **Remington Typewriter line** is the one and only

COMPLETE
Typewriter Line

It is the only line which has a typewriter for every taste, for every need, for every purse, for every purpose.

The physician with only one prescription for every case wouldn't command your confidence, would he? You know that one prescription cannot cover all cases. Neither can one style of typewriter cover all needs.

The manufacturer of only one style of machine is a special pleader for that one machine. He has got to be. But we are not special pleaders—we are consulting experts, without bias or leaning towards any type or kind of construction. We are in a position to furnish you any style of machine your individual requirements demand.

Think of us in this light, and you will realize how well it will pay you to call us in, and consult with us about your typewriter needs.
